Multi Food based Novel Extruded Nutri-Products

November, 20 – 22, 2018

Organized by

**ICAR-Central Institute of Post-Harvest Engineering &
Technology, Ludhiana, 141004 (Punjab)**

An ISO 9001-2015 certified Institution

Background

There is an increasing demand for multi food based extruded nutria products in market for their high nutritional value. Owing to their high nutritional value, multi food based nutria extruded products are gaining increasing consideration these days. Research and development on formulation of nutritious extruded products may be helpful for value addition and nutritional security. So, there is a huge potential for developing value added nutri extruded products for entrepreneurship development.

Eligibility

Rural youth, Farm men/women, workers from food processing industries, technicians, Entrepreneurs, farmers, state/central govt. officials may attend this training program. Interested participants may please fill registration form for participating this program.
